

IXISCOM: Our fully integrated Commissioning Software

"Made by commissioners for commissioners"

IXIS co-founders have developed their own commissioning software to fulfill all the needs they have identified during their 30-year career in commissioning.

From Pre-commissioning and Commissioning to Start-Up and Handover to your client, you will have a strong tool and an experienced team by your side to manage all the different aspects of the commissioning phases.

Easy to use

IXISCOM is user friendly and has been developed with a result-oriented approach:

- Instinctively access all your information within a few clicks
- Enjoy our training and support anywhere, anytime
- Manage all your projects and all types of projects
- Transpose every event that occurs on site into IXISCOM to immediately understand the consequences and take the corrective actions and effective decisions

Customizable to your needs

Work with us to tailor our in-house software to your wishes and internal policies.

Among others, we can customize languages, standards, procedures, wording, forms, KPIs, dossier templates, report templates...

"We are convinced that the tool must be adapted to the client, not the contrary"

Let IXISCOM do the behind-the-scenes work... Use more time managing!

Homogenize all your projects

Use IXISCOM for all your projects and you will get homogeneous data and reports.

It will also help you to ensure that your partners will provide information and documents as you expect to.

All your projects with the same format and information accessible on a unique platform will make your management easier and more efficient.

Full access anytime, anywhere!

IXISCOM fully works locally, without any Internet connections. However, every access to Internet, even for a short period of time will update our cloud-based database. You will then be able to remotely:

- Use our webpage and smartphone application to get the latest updated data of your project
- Download the latest reports, Gantt planning, mobilization planning, punch list...
- Review all your projects information from your office with your team

Safe and Reliable

A unique database for the whole project ensures its reliability.

We use the latest IT technologies to make your data safe with us.

Digital Commissioning (Paperless)

Go fully paperless (if you want to!) with our authorized material for on-site activities.

No need to print all your check-sheets, drawings or vendor documentation; everything is accessible on our tablets for the technicians.

Everything you need, nothing you don't

Enjoy all our IXISCOM key features, integrated into this unique software:

- A clear Dashboard
- Gantt Scheduling and Commissioning Sequence
- Mobilization & Cost Follow-up
- Commissioning Dossier
- Punch List Management
- Reporting
- Library
- And much more...!

"With IXISCOM, spend less and achieve more"
